Winter Wonder Lab with Mad Science

Saturday, December 2, 2017 • 2:00 PM

Rotary Room, Main Library

It's the most wonderful time of the year and Mad Science is going to share it with you! You won't believe your eyes as you try to determine if what you're seeing is magic or science. There will be indoor fireworks to create a festival of lights and top secret "special ice", shipped straight from the North Pole. It all comes together with our magical no-melt snow. For children in grades K-5 and their caregivers.

Registration is required and begins **September 5, 2017**. Please register children only. Register in-person, online or by phone.

This program was made possible by the Friends of the Fairfield Public Library.

Mad Science is a leading science enrichment provider that delivers unique, hands-on science experiences for children that are as entertaining as they are educational. Mad Science encourages scientific literacy in children in an age when science is as vital as reading, writing and arithmetic.

All programs are free and open to the public. For more information: fairfieldpubliclibrary.org, or call 203-256-3161.
