

Cell Phone Policy

In an effort to maintain a quiet and pleasant environment for all users, Fairfield Public Library requests that patrons turn off ringers and set cell phones to silent or vibrate while in the building. The Library recognizes the potential need of patrons to use cell phones, but asks that brief quiet conversations be conducted away from study, research and service areas. The Library Staff reserves the right to ask patrons to turn off their cell phones if other patrons are being disturbed.

Adopted by the Board of Library Trustees, May 2018
